*And more*

I'm Nguyễn Hà — River Nguyen.  
A student at Science and Technology High  
School with a passion for turning ideas  
into minimal, elegant web experiences.

I enjoy working at the intersection of  
design and engineering —  
creating interfaces that feel clear,  
intentional, and modern.

Design, code, and simple systems with  
purpose —  
that's what I love.
